Not all of these apps are necessary for using Instagram, but they do help in adding a nice touch to your Instagram experience.

If you need any kind of help in finding these apps or using them, please do contact me for assistance ☺

1. General Apps

Instagram's Official App

Instagram

- Official app
- No iPad version. You'll need to search for "iPhone apps" to download it on your iPad
- Offers basic functions:

  - Register / log in
  - Feed
  - Explore

  - Filters
  - Post pictures / videos
  - Like/comment photos

Padgram

- A nice alternative iPad app for Instagram
- It offers most basic functions, in addition to:
  - saving photos
  - logging into multiple accounts
- You cannot:
  - post photos
  - register for new accounts
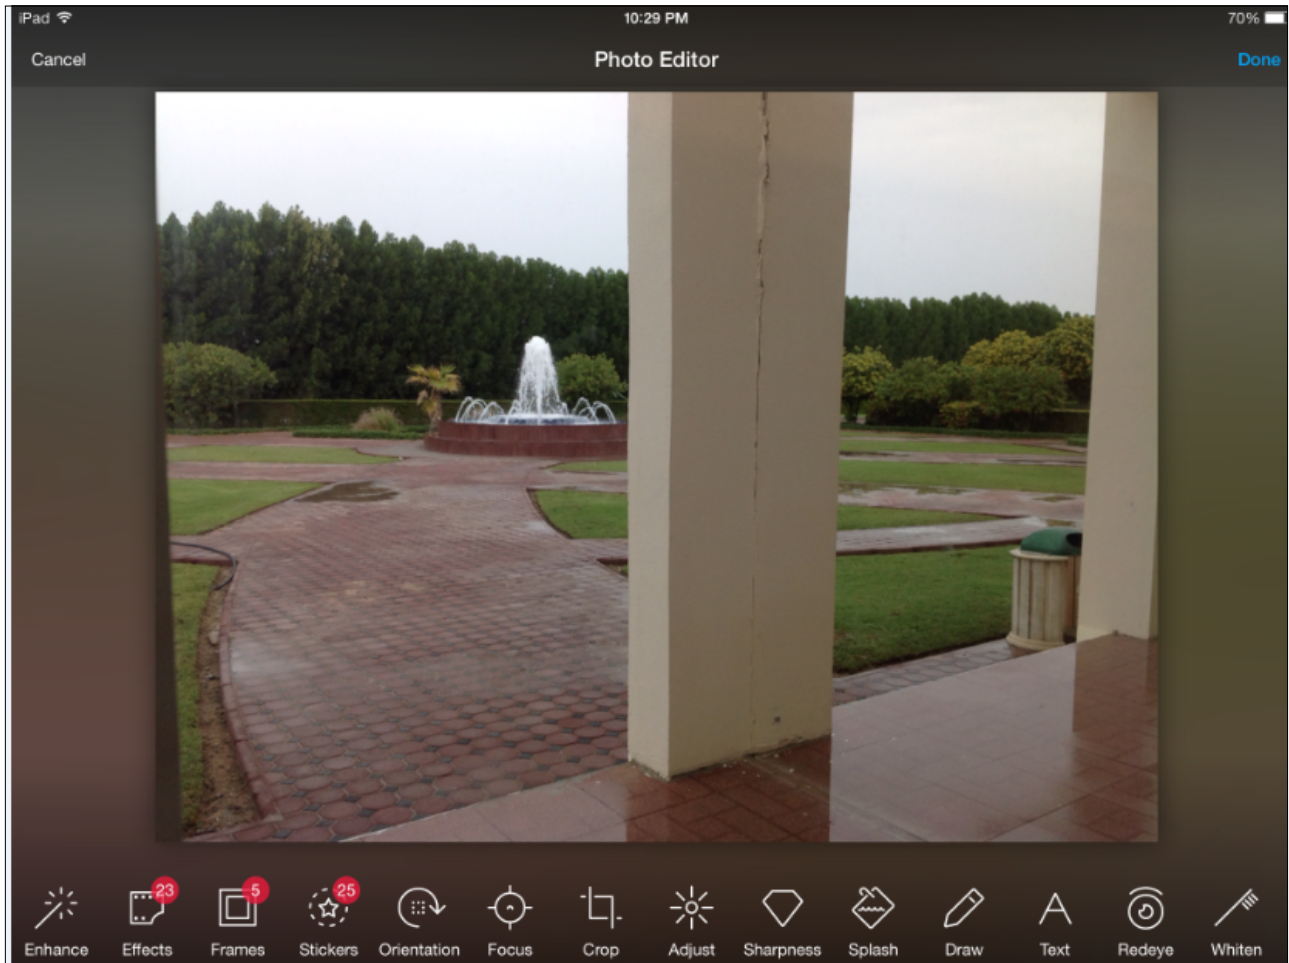

2. Photo-editing Apps

Snapseed

- Developed by Google
- Offers ample editing options to edit photos

Aviary

- **Another photo-editing app**
- **Offers different filters and photo-editing options**

InstaCollage

InstaCollage...

- **Put together more than one photo into one**
- **Offers different combinations with different numbers of photos to be combined**
- **Useful when you want to add more than one photo to one post**
- **Disadvantage: individual photos become smaller. If there is some kind of text on them, reading it won't be easy.**

3. Content-creating apps

StoryMaker

- Search for "storymaker" not "story maker"
- Allows you to create creative scenes/photos with a lot of controls and features
- You can add different
  - Backgrounds, characters (also with occupations), items, & text
- Create a scene and screenshot it
- The free version of it will do the trick

Sebah Al-Ali

Shadow Puppet

- **If you do not want to take a live video for your instagram feed, this app allows you to create videos using your pictures and recordings**
  - **Simple and easy to use**
- **You can use it with scenes created in StoryMaker or with any other photos**
- **Remember not to exceed 15 seconds**
  - **Example:** http://instagram.com/p/mQNQmOKTVG/
